# Introduction:

Cum Moon is aimed to launch worlds biggest and modern decentralized NFT market place to celebrate the art & artist across the globe.

CUM MOON Token (CUM) is our first BEP20 token aimed to build NFT Market place on binance chain to reduce the transaction fee so due to low gas fee people would be able to buy , sell and mint their NFTs for very nominal fee.

# Our Vision:

We aimed to modernize our marketplace with the help of art community from world wide by introducing digital Live Art gallery and Live art club to expand our ecosystem.

# CUM MOON Art Gallery:

CUM MOON is also aimed to launch digital art gallery by promoting Blockchain based art across the world by different payment methods like Google pay , PayPal Skrill and credit card So Art lovers would able to buy NFTs through various payment methods easily and they are not option less if they do not deal in crypto currency.

# CUM MOON Art Club:

Live Art club will invite artist & celebrities to join our digital art club by offering them an exclusive benefits to create Custom arts and sponsor their NFTs for the fans on demand So the fans and supporters can ask their favourite celebrities to offer NFTs according to their own choice.

CUM MOON Art Club will also organize exhibitions and seminars to gather fans and celebrates on the same platform to boost community volume and investors confidence internationally.

# Community:

Our main focus is community building and for that we have raised our community following on telegram and twitter by offering Airdrops tokens and giveaway contest to enhance community support.

Strong and active community is key to success of any crypto project and we are much serious about it.

# Marketing:

We are very much focused on marketing for that we have already partnered with famous YouTube influencers from Asia and Europe, we have also planned for AMA in Russian, Chinese and Vietnamese community to spread awareness among investors.

We will continue marketing after listing and our Future plans are BTOK ads, Cointelegraph press realises and to shill our project through famous celebrities.

# Investors Reward:

Every Cum Moon token holder will own the stake of NFT market place as a share holder . All revenue generated by Cum Moon market place in terms of commission from buyer seller and minter will distribute to the community as per their token holding percentage.

# Liquidity & Exchange Listing:

Liquidity provided to DEX will be burn and add Auto-Liquidity while we are not only focused on DEX listing but also our objective is to be listed on several big centralized exchanges to increase trade volume and price stability.
